EXPERIENCE

Wealthy — BuildWealth Technologies Private Limited

Frontend Developer (React, Next.js, TypeScript, GraphQL)

June 2024 - Current

- **Architected a Next.js CRM** for **250+ partners** managing **4Cr+ AUM**, reducing manual data entry by **70%** with bulk actions (add / edit / reassign / delete) and reducing monthly reporting time by **30 hours** via automated analytics dashboards.
- **Pioneered real-time team hierarchy visualizations** (nesting 10+ levels), boosting partner onboarding efficiency by **45%** and enabling managers to track **20+ sales metrics** (SIPs, AUM growth, insurance premiums) in mutual funds, bonds and PMS.
- **Mentored** junior developers through code reviews and pair programming, improving efficiency 30%.

Open Financial Technologies

Frontend Engineer (Angular, React, TypeScript, RxJS, SCSS)

July 2022 - May 2024

- **Engineered** banking module using **Angular, CLI, RxJS** as standalone components, enabling virtual payout/settlement accounts for **10+ banks**, cutting processing time **40%** and handling **\$5M+/month**.
- **Architected** the **frontend** for a B2B Fintech (**Open Money**) with **Angular & React**, streamlining invoice linking & simplifying payments for **3.5 M+** businesses, processing over **\$35 B+** in transactions.
- **Designed Angular UI** for loan applications (Term Loan, Line of Credit, BNPL), reducing submission time **25%** and processing **\$4M+/month** in loans for the lending team.
- **Spearheaded** FOS web app for the internal admin team, streamlining the user information collection process using **React**. Additionally, I have built the **BankingStack** & **Capital** web apps using **React.js**.

ADPUSHUP

Full-stack Intern (React, Node.js, TypeScript, Redux)

April 2022 - July 2022

- **Built** stateful UIs (**React/Redux/TS**) and streamlined data pipelines via **PySpark (RDD/DAG)**.
- **Engineered** responsive UIs (**React/NodeJS**) and ad integrations (**Mongoose**), slashing latency **20%**.

PROJECTS

CRM Platform | *Next.js, GraphQL, TanStack Table, TypeScript* | [Live Link](#)

- **Built** a scalable CRM platform with role-based dashboards (National/Zonal Sales Head), advanced filters for SIP metrics & Mutual Fund AUM tracking, and MyTeam module featuring CSV uploads, bulk reassignments, branch management, and customizable columns with pagination, enhancing operational efficiency by 60% for 300+ users.

CineScope | *Node.js, Angular, TMDB API, JWT* | [Github Link](#) | [Live Link](#)

- **Engineered** a responsive web app integrated with TMDB API, featuring JWT authentication, lazy loading, and advanced UI effects like carousels and shimmers.

Threadify | *NextJs, React, TypeScript, Clerk, Webhooks, MongoDB, Zod* | [Github Link](#) | [Live Link](#)

- Developed a scalable full-stack application with SSR, API routes, and client-side routing. Integrated CLERK for authentication, UploadThing for file uploads, and webhooks for real-time events.
